LiveJournal’s many features make it best on line diary

On-line diaries are storming the Internet with the same prevalence that first e-mail providers and web-page hosts had a few years ago. Sites such as The Open Diary (www.diaryland.com) and Diaryland (www.livejournal.com) allow post daily messages in public journals where readers can post either anonymous or signed responses. Part of the purpose of online diaries is to anonymously communicate with others. Users usually have their documents in various forms of creative expression, be it art, short stories or streams of conscious- ness notes. However, since the diaries are in the public domain, diary services forbid the use of objectionable material and reserve the right to delete or archive member’s diary pages. On-line diaries only rely on HTML and do not have the database that allows storing and recalling comments, or journals. On-line diaries are a great step for the RPG game community. The Elder Scrolls III: Morrowind, is expected to be one of the best games of the year. Many gamers have wasted years for a game that would provide a world within their reach. This game would not simply have a few levels, each with a slightly different theme, but rather a large and consistent landscape with unique challenges to push forward. Morrowind is precisely such a game, with complete openness and the freedom to do essentially anything possible within the physical limits of the in- game world. This game carries the visual and audio quality to a new level, and the look of a modern ’90s-teen.
